Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 6-9 are allowable over prior art references because related references do not disclose receiving a signal correlated with a PN sequence, match filtering the signal, correlating the matched signal with the PN sequence, determining a peak of the correlated signal, determining a threshold based on the correlated signal, if the peak value exceeds the threshold, subtracting a template signal, and recomputing the threshold value by performing these steps again. Time values of the peak signal are computed and a time of arrival of the received signal is determined.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Curtis B. Odom whose telephone number is 571-272-3046. The examiner can normally be reached on Monday- Friday, 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
